

Design Your Thinking

Grading Criteria

CRITERIA	POINTS EARNED
Attention to detail	
Selected learning target(s) appropriately aligned with our current unit and is accurately and neatly copied down.	0 1
The appropriate unit and lesson numbers are listed for the practice problems you worked on.	0 1
The additional resource is listed accurately and neatly.	0 1
Illustrative Mathematics practice problems	
Practice problems are neatly written on your note-catcher and work is clearly shown for each problem.	0 1
The work shown demonstrates evidence of effort and care.	0 1 2
Additional resource <i>(or additional IM practice problems)</i>	
You select a learning activity that aligns with the learning target you identified and supplements the IM practice problems you worked on.	0 1
It is clear that the time you spent working with this additional resource helped deepen your understanding of the learning target.	0 1
Your journey	
Another person can easily follow the learning journey you took and see connections between the learning target you identified and the work you did.	0 1 2
